

We are seeking a Cardiopulmonary Technologist/ Pulmonary Function Technologist to join our healthcare team in Sarnia, Ontario.

The Bluewater Sleep Disorder Clinic is Accredited through the Integrated Community Health Services Centre Quality Assurance Program based in Ontario. The clinic is expanding and has an exciting opportunity for an individual looking to join our team.

We offer an expanding line of services related to pulmonary function therapy and sleep disorders. We have excellent opportunities for a part-time or full time Cardiopulmonary Technologist. The ideal candidate will be able to work independently as well as part of a team.

Organizational skills and an ability to work in a fast-paced environment are essential. All staff members are a valued part of our health care team, providing quality care to our wide range of clientele. We take a great deal of pride in our ability to ensure our therapists are well trained and patient therapy-oriented.

Primary responsibilities include:

- Performing Pulmonary Function tests in accordance with accreditation and ATS standards.
- Cardiopulmonary Technologist Diploma in good standing.
- Valid BLS/CPR with AED.

Thank you for your interest in the Bluewater Sleep Disorder Clinic. Successful applicants will be contacted for an interview and asked to provide personal and professional references.

Competitive remuneration; full or part-time schedule Monday to Friday; Cardiopulmonary Technologist or Pulmonary Function Technologist experience preferred.
